Vibrations are the New Frontier in Natural Solutions.

Although old as time...
A New Delivery has been born!

Why would we Infuse Gemstones

with Essential Plant Oils & Therapeutic Microscopic Gems Spheres in a Liquid Crystal™ Coating?
This brings Specific & AMPLIFIED results.
These products really work!

1. Helps hold your Vibrations UP: Vibrate high - attract positive. Vibrate low - attract negative. (Like Attracts Like) Our good thoughts can raise our vibrations. However, it can be challenging to be consistent with this. Good news! Natural therapies can also raise our vibrations. Now combined and amplified, these tools can help hold our vibrations up consistently, making it easier to naturally think positive, loving and grateful thoughts.

2. Charges Food: A fresh picked apple has good energy value, processed foods little to none. Kinesiology tests have shown VibesUP products will charge healthy good energy into anything they are near in 10 seconds. This includes you, your food & beverages.

3. Tune into specific energy themes: Gemstones & Plant oils work Vibrationally to attract beneficial energies. By combining these together, you can fine tune and specify the desired energy you're attracting. Then the abilities of both are powerfully amplified with the application of our special Liquid Crystal™ Coating, resulting in amazing 'Energy' you can feel working on many levels.

4. Helps transform negative energies:
Gently release negativity, pain and blockages.

Muscle Test & Play with this New, Good Energy

Try a simple yet amazing demo to see & feel how impressively powerful the energy raising abilities of this new breakthrough are. This can be experienced with muscle testing. Hold any item up to your chest with one hand, while having someone push gently down on the other outstretched arm. If it is a low vibrating item (not good for you), your arm strength is weakened. Set the item on top of any of the VibesUP products for 10 seconds. Retest. The Vibes are raised, and your arm holds powerfully strong! The good vibes are so powerful that the newly charged item will charge anything it is around.

Why Raise Our Vibrations?

It's a fact... High and Low Vibrations can not co-exist.
Germs, disease and negativity vibrate low.
Imagine the possibilities...

Scientific Studies at UCLA show when our vibrations are raised, our intelligence, co-ordination, consciousness, happiness and levels of health can also be raised. The study also reveals that Essential Oils, Gemstones & Quartz Crystals can help raise vibrations. Now VibesUp offers these together in specific, amplified, easy-to-use Tools and Toys.
